

Alex Horodnic

Frontend Developer | Angular, TypeScript, RxJS

Athens, Greece alex@alexhorodnic.com alexhorodnic.com linkedin.com/in/alex-horodnic github.com/AlexHorodnic

PROFESSIONAL SUMMARY

Frontend Developer with 4+ years of production experience building and maintaining Angular ecommerce applications. Experienced across product discovery, product detail, cart, checkout, SEO, analytics, responsive UI, and production support for Greece, Cyprus, and B2B storefronts. Strong focus on TypeScript, reusable frontend architecture, cross-functional delivery, and reliable customer-facing experiences.

PROFESSIONAL EXPERIENCE

Frontend Developer | Public Group

July 2022 - Present

Athens, Greece

- Developed and maintained production Angular ecommerce features across PDP, PLP, cart, and checkout flows for Greece, Cyprus, and B2B storefronts.
- Implemented configuration-driven promotional and standalone service journeys, including responsive layouts, pricing, eligibility safeguards, and service-selection behavior.
- Improved ecommerce SEO accuracy by enhancing product JSON-LD so search engines could distinguish primary product prices from promotional and service values.
- Integrated and evolved REST API and analytics data contracts for availability, ratings, delivery options, cart, and checkout behavior.
- Diagnosed and resolved production issues involving pricing, service availability, mobile ecommerce, payment messaging, and B2B customer flows.
- Built internal operational tooling with search, filtering, persisted state, sorting, validation, history, and batch-action workflows.

Customer, Agent & Technical Support | Western Union

April 2021 - 2022

Athens, Greece

- Resolved transaction, account-verification, and technical workflow issues for customers and agents across Europe in a fast-paced international environment.
- Investigated complex cases, maintained accurate documentation, and coordinated escalations through Salesforce CRM and internal support teams.
